The Chairman welcomed all the members and called the Meeting to order. In his prefatory remarks the Chairman highlighted the significance of research for a University of such eminence as the Indira Gandhi National Open University. He observed that research activities in the Open and Distance Learning System (ODL) acquire some additional theoretical and operational dimensions that merit serious consideration by the Research Council – the apex policy framing organ for the research activities of the University. These required organizing an operational method that would suitably blend the experience of the Conventional System and the innovative possibilities rising from the experience of the Open and Distance Learning System. The Researchers desirous of working in the Open University System would need to be scanned for their abilities to utilize special features of ODL method and making sensible use of such applications in their Discipline Oriented or Distance Learning System Based researches.

The Chairman underlined the necessity and urgency for the Research Unit to initiate the task of establishing Orientation Modules containing stage-by-stage guidance/tutorial for prospective entrants so that they take well-informed entry into our Research Programmes. The Researchers, he was emphatic, should reach the optimal take-off stage in terms of required skills either at the time of admitting into the Research Programmes of the University or soon thereafter; and, he stressed, this Orientation Programme to be an organized activity occurring regularly during the course of the total duration of the Researchers' Study Programme. He also advised the Research Unit to formulate a refresher/orientation package on Research Methodology, all encompassing and covering various Disciplines, so that in due course of time, this package could be institutionalized and recognized by UGC. He suggested that the advantage of having a pan-India organizational structure should be harnessed to address regional research paradigms for which purpose academic guidance through designated research officers can be provided at Regional Centres, and at a later time, even at select Study Centres. The quality products of our Research Programme could be engaged for this purpose initially as they had been trained in ODL Oriented Research Methods and were better placed for taking such assignments.

The Chairman stressed the necessity of strengthening the research administration of the University by up-scaling the existing skeletal set up of Research Unit into an expanded Research Coordination Division. The enlarged and upgraded entity would focus on Systemic Research, Theoretical and Empirical Research in various Academic Disciplines and Inter-disciplinary Areas, Project Specific Research and Action Oriented Research; and will help create the necessary intellectual ferment that is generally the hallmark of exuberant academic institutions. In fact, the entire gamut of research in the University should be under the purview of the Research Coordination Division, he stressed. The members of the Research Council readily endorsed the views of the Chairman and suggested to him to initiate appropriate measures for this purpose.

The Chairman asked Prof. Ravindra Kumar, Member-Secretary of Research Council to present the Agenda Items. The Meeting was informed by Prof. Ravindra Kumar that the Agenda was organized into six major Sections and that, in conformity with the decision of the 20th Meeting of the Research Council, the details were to be presented to the members in the Power Point Format. The Chairman suggested that the Meeting should consider the Mandatory Transactions **(A)**, and regular approval related matters of Registration, Progress Reports etc. **(C, D and E)** in the beginning. Subsequently, the Meeting would deliberate on Policy Issues **(B and F)**.

The Meeting, accordingly, transacted the following business :
